# 九州大学大学院工学研究院 教員公募要領

九州大学大学院工学研究院長  
山本 元司

時下ご清栄のこととお慶び申し上げます。  
さて、九州大学大学院工学研究院では、下記のとおり公募を実施いたします。  
関係各位への周知方と適任者の推薦につき、ご高配を賜りますようお願い申し上げます。

|         |                                                                                                                                                                                                                                                                          |          |
|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| 1 概要    | 応用化学部門は、機能物質化学講座と分子生命工学講座の2講座で構成しています。今回、募集する助教は、分子生命工学講座の森研究室に属し、広い意味での生化学、特にバイオテクノロジー、創薬、診断技術に取り組むバイオメディカルエンジニアリングに関わる教育と研究を担当する予定です。<br>また国内外の大学との学術的な交流を促進する役割を担います。                                                                                                 |          |
| 2 所属    | 応用化学部門                                                                                                                                                                                                                                                                   | 分子生命工学講座 |
| 3 職種    | 助教                                                                                                                                                                                                                                                                       |          |
| 4 募集人員  | 1名                                                                                                                                                                                                                                                                       |          |
| 5 業務内容  | 教育・研究                                                                                                                                                                                                                                                                    |          |
| 6 専門分野  | 生化学、バイオテクノロジー、創薬、診断技術                                                                                                                                                                                                                                                    |          |
| 7 担当科目  | 学部ならびに大学院講義、国際コース講義（英語）、応用化学実験、基幹教育（全学教育）科目などを担当。                                                                                                                                                                                                                        |          |
| 8 応募資格  | (1) 博士またはPh. D の学位（採用時まで取得見込者を含む）、または同等の能力を有すること。<br>(2) 学部および大学院博士課程で教育・研究指導を行う能力を有すること。<br>(3) 英語による講義及び研究指導能力を有すること。<br>(4) 研究と教育に熱意を有すること。                                                                                                                           |          |
| 9 着任時期  | 2026年10月1日以降のできるだけ早い時期（本学においてより早期の採用が可能な状況になった場合には、最終候補者と調整の上で着任時期を前倒しする場合がある。）                                                                                                                                                                                          |          |
| 10 雇用期間 | 常勤（任期5年（※））。任期中に教育研究等の審査を行い、審査の結果、認められた場合は、常勤（任期なし）へ移行<br>（※）本学における引き続き雇用期間が5年を超えている場合は通算雇用期間が10年となるまで。                                                                                                                                                                  |          |
| 11 応募書類 | (1) 履歴書<br>（写真貼付、学歴、職歴、資格を記載。連絡先とE-mailを明記）<br>(2) 業績書<br>Ⅰ 研究業績<br>（①学術論文（査読の有無を区別）、②国際会議Proceedings（査読の有無を区別）、③著書・編著書、④総説・学術資料等、⑤講演論文（②を除く）、⑥発明・考案・特許等、⑦その他（掲載確定論文・作品等）に分類）<br>Ⅱ 教育実績<br>（ティーチングアシスタント、公開講座、社内教育等を含む）<br>Ⅲ 学会および社会における活動等<br>（所属学協会およびその学協会での活動歴、受賞歴等） |          |

|             |                                                                                                                                                                                                                                                                                                                                                                                 |
|-------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|             | <p>Ⅳ 科学研究費補助金、共同研究・受託研究等の競争的研究資金の獲得状況（代表分）</p> <p>(3) これまでの研究の概要（2,000 字以内）</p> <p>(4) 今後の研究計画（2,000 字以内）</p> <p>(5) 応募の動機と教育・研究に対する抱負（1,000 字以内）</p> <p>(6) 代表的な論文の別刷り（3 編以内、コピー可）</p> <p>(7) 応募者について意見を伺える方 1 名以上の氏名、所属および連絡先</p>                                                                                                                                             |
| 12 応募締切     | 2026年3月19日（木）                                                                                                                                                                                                                                                                                                                                                                   |
| 13 提出方法     | <p>(1) 応募書類を郵送する場合<br/>上記提出書類をプリントしたもの1部と、その書類が1つにまとめられたPDFファイルを納めたUSBメモリを同封した封書に朱書で「教員応募書類在中」と明記し、下記「提出先・問合せ先」の教員宛に書留で郵送してください。</p> <p>(2) 応募書類を電子ファイルでアップロードする場合<br/>下記「提出先・問合せ先」のメールアドレスまで、メール件名を「教員応募」として連絡ください。こちらから共有フォルダ用URLを連絡しますので、応募書類をアップロードください。書類は1つのPDFファイルにまとめてください。</p> <p>※提出書類及びデータは返却しませんのでご了承ください。</p>                                                      |
| 14 提出先・問合せ先 | <p>〒819-0395 福岡県福岡市西区元岡 744</p> <p>九州大学 大学院工学研究院 応用化学部門</p> <p>教授 森 健</p> <p>電話 092-802-2849 FAX</p> <p>E-mail <a href="mailto:mori.takeshi.880@m.kyushu-u.ac.jp">mori.takeshi.880@m.kyushu-u.ac.jp</a></p>                                                                                                                                                                     |
| 15 選考方法     | 書類審査（第1次選考）の上、面接（第2次選考）により選考します。面接はオンラインで実施する場合があります。                                                                                                                                                                                                                                                                                                                           |
| 16 労働条件     | <p>(1) 就業場所<br/>（雇入れ直後）<br/>九州大学 大学院工学研究院 応用化学部門分子生命工学講座（福岡市西区元岡744）</p> <p>（変更の範囲）<br/>本学が指定する場所</p> <p>(2) 就業時間・休憩時間・時間外労働<br/>同意に基づき専門業務型裁量労働制により7時間45分働いたものとみなされます。</p> <p>(3) 休日<br/>土日、祝日、12月29日～1月3日</p> <p>(4) 賃金<br/>年俸制（令和2年4月1日導入の年俸制）が適用されます。<br/>なお、年俸額については経験等に基づき本学の関係規程により決定します。</p> <p>(5) 加入保険<br/>雇用保険、労災保険、健康保険、厚生年金</p> <p>(6) 受動喫煙防止措置の状況<br/>敷地内全面禁煙</p> |
| 17 備考       | <p>(1) 審査の過程で面接を行う場合の旅費・滞在費は応募者の自己負担とします。</p> <p>(2) 九州大学では、男女共同参画社会基本法（平成11年法律第78号）の精神に則り、教員の選考を行っています。（男女共同参画推進室 <a href="https://danjyo.kyushu-u.ac.jp/">https://danjyo.kyushu-u.ac.jp/</a>）</p> <p>(3) 九州大学では「障害者基本法（昭和45年法律第84号）」、「障害者の雇用の促進等に関する法律（昭和35年法律第123号）」及び「障害を理由とする差別の解消の推進に関する法律（平成25年法律第65号）」の趣旨に則り、教員の選考を行います。</p>                                            |

|  |                                                                                                                           |
|--|---------------------------------------------------------------------------------------------------------------------------|
|  | (4) 九州大学では、平成29年7月より配偶者帯同雇用制度を導入しています。                                                                                    |
|  | (5) 過去に学生に対するセクシャルハラスメントを含む性暴力等を原因として懲戒処分等を受けた場合には、処分の内容及びその具体的な事由を履歴書等に必ず記入願います。虚偽の記載があった場合には、採用取消や懲戒処分等の対象となる場合があります。   |

# Faculty Recruitment at Faculty of Engineering, Kyushu University

The Faculty of Engineering, Kyushu University, invites applications for the following positions.

Therefore, we kindly request your assistance in disseminating this information and, if possible, recommending suitable candidates who meet our criteria.

|                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 Summary                          | The Department of Applied Chemistry consists of two courses: the Functional Material course and the Chemistry and Biochemistry course.<br>The assistant professor will belong to the Mori laboratory of the Department of Applied Chemistry and will be in charge of teaching and research related to Biochemistry and Biomedical engineering.<br>He/she will also play a role in promoting academic exchanges with domestic and international universities.                                                                                                                                          |
| 2 Affiliation                      | Department of Applied Chemistry                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|                                    | Chemistry and Biochemistry                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 3 Position                         | Assistant professor                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 4 number of persons to be admitted | one person                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
